- **Winter Weather Advisory** - Winter weather conditions are expected to cause significant inconveniences and may be hazardous. When caution is used, these situations should not be life threatening.
- **Winter Storm Watch** - Winter storm conditions are possible within the next 36 to 48 hours. People in a watch area should review their winter storm plans and stay informed about weather conditions.
- **Winter Storm Warning** - Life-threatening, severe winter conditions have begun or will begin within 24 hours. People in a warning area should take precautions immediately.
- **Blizzard Warning:** Issued when winds of 35 mph or greater are combined with blowing and drifting snow with visibilities of a quarter mile or less. Seek indoor shelter immediately and stay indoors until the severe conditions end.
