Calvert County Board of County Commissioners Announces New Website to Obtain Information on Procurement Opportunities Related to Cove Point LNG Expansion Project

PRINCE FREDERICK, Md. – Oct. 10, 2013 – The Calvert County Board of County Commissioners is pleased to announce the unveiling of a new website to help local businesses participate in the proposed major expansion of the Dominion Cove Point LNG facility in Lusby, Md. If the project is approved it is expected to bring 3,000 jobs to Maryland at the peak of construction and promises to be one of the largest construction projects in Maryland's history. Construction is expected to begin in 2014 with export operations in 2017.

Dominion has hired IHI/Kiewit Cove Point, a joint venture of IHI E&C and Kiewit Energy Company, as its engineering, procurement and construction (EPC) contractor. IHI/Kiewit Cove Point will be responsible for the EPC of the new facility. IHI/Kiewit will be providing many opportunities to local, diverse and/or small businesses in the region.

The website, www.1covepoint.com, was created by IHI/Kiewit for suppliers, subcontractors, construction product retailers and local businesses that would like the opportunity to work with IHI/Kiewit on the project. It also includes information about the status of the project and contract awards. The new website is currently accepting registration for material suppliers, subcontractors and service providers that have an interest in being considered for the various opportunities at the Cove Point Project.

Information on the project can be found online at <https://www.dom.com/business/gas-transmission/cove-point/liquefaction.jsp>.

###

Calvert County is Maryland's smallest county in land area with 213 square miles. It is home to nearly 90,000 people and has one of the highest standards of living in Maryland.
