

January 25, 2022 Public Hearing Comments

Speaker	Comment	
Ed Bailor	Have to do this and do it right; don't liberalize this program to address the agenda of the anti-police	
Wes Thomas	This 3rd draft is better, good step in right direction	
Sandra Raviv-LWV	role of law enforcement too strong as drafted, should have no voting capacity; existing police policing policy doesn't work; more citizen involvement	
Denise Plater	timeline of results of board; qualifications for juror-felony conviction; civilian oversight-not police oversight; no police voting; set budget-Baltimore City is set at 1% of Police budget so here it would be \$183,000; sue matrix; selection transparency	
Scott Kinkade	ensure police are obeying the law-should be neutral; should include former law enforcement; adopt process that allows neutrality and that law is followed	
Michael Kent -NAACP	minority community 26% of contact with police department; minorities are terrified of being pulled over by the police; need to be able to go to someone other than police; membership regarding felony-put a time limit for prior conviction; happy with work done	
Katina Mackall	Commissioners don't represent minority community; PAB needs to look like her; appears boards will be stacked; previous items mentioned not incorporated in each new draft; if police on board citizens will be reluctant to come to them	
Claire Hill	Received alerts for child missing from Lusby which is 1 hour south of her but no alert for serial killer in Richfield Station; need to talk about administration and what they are doing to help; administration is not communicating well with the public	
Leonard Zuza	Removal B.2 is reasonable-missing meetings is credible reason; removal at discretion with out objective standard-not as credible; need concrete criteria for removing from commission	
Mike Shisler	2&3 part A needs to say serve the citizens	
Bob Harvey-State's Attorney	Need to have procedures put in place for boards to work with SAO; may have criminal issues and don't want boards to compromise being able to prosecute	
Nick DeFelice-FOP	police should be trusted; believes should have transparency; good police work; treat people professionally; background checks are necessary
